

SIXTH GRADE NEWSLETTER

History

The Required Reading for this week will be pages 171-175.

Last week we finished the chapter on Ancient Greece and created a study guide. This week we will divide our time between preparing for the test on Friday and beginning our notes on the Romans. The class will be given time in class to study for the test, but the majority of their preparation should take place at home. Our notes will be on the Geography of the Apennine Peninsula. The class will learn how this affected the beginning of Rome.

Science

Required Reading for Science will be pages 150-161. This week the class will continue their notes on Geology. We will finish our discussion on rocks. Students will learn about the different types of metamorphic rocks. From there we will move to Gemstones and metals. The class will learn about precious stones and what they are made of. Additionally, we will learn about metals and how humans have used them over time. We will learn about how precious metals are used for currency, but useful metals work for tools.

Mr. Frazier's Desk:

Hello everyone, and welcome back to another wonderful week here at Redeemer Christian Academy. I hope that you all had a wonderful weekend. I am glad that Redeemer does so many cool events and creates awesome memories with field trips and after-school memories. However, I am glad that this week will be back to normal so that we can catch up and get back on track. I will be going with the 7th grade class to Sacramento next week for a few days, and I am trying to schedule all tests and quizzes to be done before I go. Because I am the teacher that goes on all of the trips my students take breaks with their notes and that can be dangerous. If you feel like your child is falling behind please don't hesitate to contact me. **Spring Pictures will be on Wednesday March 6th.** Not everyone will be getting their pictures taken, but those that do will be able to have free dress that day. The all school **Ice Skating Night is on Friday March 22nd.** This Saturday everyone is invited to the Cal State L.A. Science Day. In addition the "auditions" for our Talent Night will be coming up. If you are interested please contact administration. We are not trying to weed people out, but make sure students have a plan. The rest of the middle school trips are rapidly approaching so please don't forget to pay requisite fees on time. Speaking of middle school events the **Winter Ball will be this Friday March 8th from 6-10pm.** Students should come dressed with "formal" clothes, but they should also have a change of clothes for the active part of the night. It's gonna be a great night, and I hope everyone can make it! Please feel free to email me with any questions. Thank you so much and God Bless!

Tests & Quizzes

History Test: Thursday 3/7

MIDDLE SCHOOL HISTORY & SCIENCE NEWSLETTER

7th History.

The Required Reading for this week is pages 124-131.

Last week the class finished their notes on the colonies. On Monday we will create a study guide for their test next week. The remainder of our time will be spent taking notes on the next chapter. The following unit of our book is on the American Revolution. We will be talking about the factors that led to the conflict and how nuanced and complicated it was then.

7th Science

The Required Reading for Science this week is pages 230-235.

The first half of the week will be spent primarily studying for the test on Wednesday. We have a lot of things coming up and I want to make sure that everyone is on the same page. After the exam we will begin taking notes on Chapter 8. The next chapter is on Birds. Students will learn about the anatomy of birds and how they are unique from other animals.

It's gonna be a great night, and I hope everyone can make it! Please feel free to email me with any questions. Thank you so much and God Bless!

8th Grade History

The Required Reading for History is pages 125-132. Due to the unusual nature of this week I don't know how much class time we will have for history and science. Because of this I will not be assigning the regular weekly essay. We will have our old homework schedule. The students will do the Identification sections on the Section Review homework. We will be looking at the Holy Roman Empire and its role in the Catholic Church. When this is complete the class will start learning about the foundations of the Renaissance.
